The Daily Playne, 
BROWNS FORAY.

Now that John Brown’s foray upon Virginia 
is over and the surrounding ripples have 
subsided, the excitement which has greatly extended at the North continues to grow and increase at the North.

The raid was a success in every particular, the abolitionists have been victorious, and the anti-slavery sentiment is growing stronger in every direction. The news of the event was received with the utmost enthusiasm, and the people of the North were filled with joy and triumph.

The raid was a great relief to the anti-slavery cause, and it has shown the world that the abolitionists are not to be despised.

The raid was well planned and executed, and it has shown the world that the North is not to be trifled with.

The raid was a splendid victory for the anti-slavery cause, and it has shown the world that the North is not to be despised.

PILLS.

For the VEGETABLE.

A gentle, moist, and well tempered climate, is a great tonic for the body. It is the same as for any other disease, and the satisfaction which the patient can have, who has been under the care of physicians, and has had the benefit of the atmosphere of vegetation, is very great. The pills are made from the leaves of the vegetable, and are said to be very valuable in cases of consumption, diabetes, and other diseases. They are also useful in the treatment of various complaints, such as biliousness, dyspepsia, and headache.

EDUCATIONAL.—See card of Mrs. Wm. Brand, 193 Camp street.
