Telegramed to the Daily Piaurine.

A CAUTION.

The New York Herald some time since published a plan for the abolition of the North. It is an absurd and inflammatory kind, proposing a league or confederacy of the slave states, to protect the slave population in the North from being turned into free negroes or mulattoes, and from the influence of the Negro Element. The plan is, at best, a species of delusion, and is calculated to deceive the public, and to create a false impression of the state of the slave population in the North. It is a delusion which may fall into the hands of the enemy, and be used to their advantage. The plan is, at best, a species of delusion, and is calculated to deceive the public, and to create a false impression of the state of the slave population in the North. It is a delusion which may fall into the hands of the enemy, and be used to their advantage.
