To support Greenville’s faith communities in helping members achieve healthier lifestyles through promotion and support of policies, systems and environments that make the healthy choice the easy choice.

**BACKGROUND**
- 61% of adults and 41% of youth are overweight or obese in Greenville County, South Carolina.
- Hispanic or Latinos make up 8.7%, and Black or African Americans make up 18.5% of Greenville County.
- Hispanics are 23% more at risk for obesity and 50% higher death rate caused from diabetes (CDC).
- African Americans have the highest rates of obesity: 53% for women, and 36% for men, and heart disease is the leading cause of death (NAACP).

**PURPOSE**

**Data Collection & Dissemination: Youth and Adult Populations**
- New congregations continue to join the At Worship initiative.
- LWG and Furman conduct evaluation of adult initiatives.
- Refers congregants to specific resources to help them achieve their goals.
- Collected data on 3 new congregations
- Entered and analyzed the data using STATA.
- Wrote a report for the congregation to be presented to the Health Ministry Team.
- Post-evaluation surveys are held in a year to track progress.

**Event Planning**
- Assisted in planning of 2016 Worship Summit
  - Developed agenda.
  - Coordinated Vendors.
  - Assisted Health Ministry Teams with development of ‘Spotlight’ posters.
  - Welcomed attendees and assisted with registration.

**What’s Next?**
- LWG At Worship workgroup will continue to mentor and support new congregations.
- Furman University will continue to evaluate impact of At Worship initiatives.
- Summer 2016 fellows will focus on development of a comprehensive curriculum for quarterly networking sessions of Spanish-speaking congregations in Greenville County.

**Next Level Youth Leadership Initiative**
- Participating congregation expanded health promotion efforts to include youth.
- LWG and Furman conduct evaluation of youth initiative

**Our Contributions**
- Attended the first session and collected data concerning life-style factors, attitudes, and support systems.
- Utilized the PYD survey.
- Entered enter the data and analyze it using STATA.
- Wrote a report of the significant findings.

**Internship Learning Objectives**
- Gain an understanding of the breadth of faith-based health promotion on a policy level.
- Conduct data entry of individual-level health behaviors pre and post-intervention surveys and institutional-level baseline surveys.
- Analyze and interpret evaluation results.
- Create a codebook and written data entry protocol.
- Complete reports to be presented to congregations.

**Internship Learning Objectives**
- Gain an understanding of the breadth of faith-based health promotion on a policy level.
- Conduct data entry of individual-level health behaviors pre and post-intervention surveys and institutional-level baseline surveys.
- Analyze and interpret evaluation results.
- Create a codebook and written data entry protocol.
- Complete reports to be presented to congregations.

**Nutrition Education**
- A Spanish-speaking congregation requested nutrition education in Spanish.
- We developed an interactive presentation in Spanish.
- The focus points of this presentation were:
  - Reading Nutrition labels
  - Sodium consumption
  - Sugar sweetened beverages
